

HAVELLS

WHEN YOUR BODY IS ALKALINE
WHY CAN'T YOUR WATER BE?

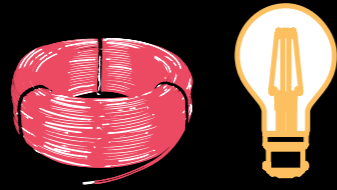

ABOUT HAVELLS

A company with an unflinching commitment to quality, innovation and customer satisfaction - Havells India Limited has today emerged as a dominant player in the Fast Moving Electrical Goods industry. The company manufactures a number of products ranging from Cables, Wires and Switchgear in domestic and industrial segments, to Fans, Water Heaters, Small Appliances, Air Coolers, Personal Grooming, Home Automation, Switches, LED Lighting & Fixtures in the consumer facing segments. With the acquisition of Lloyd, and entry into the Water Purifier category, the company has become a fine example of successful transition and transformation from a Fast Moving Electrical Goods manufacturer to a true Consumer Durables company, steadily spreading its operations across India.

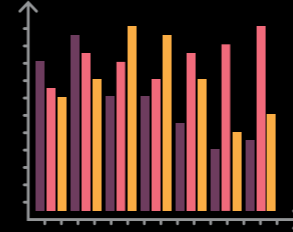

Havells started its operations in the 1970's and since then, the company has used a judicious mix of organic growth and inorganic opportunities to boost revenues and scale up business. Global recognition came Havells way in 2007 with the stunning acquisition profile Sylvania, which also pitch-forked it among the top four lighting companies across the world. The company today owns a range of established and prestigious brands like Havells, Lloyd, Crabtree and Standard that are sold through it's extensive network of dealers and retailers spread across the country. Havells has 12 state-of-the-art manufacturing units in the country located at Haridwar, Baddi, Sahibabad, Faridabad, Assam, Alwar and Neemrana. These units manufacture globally acclaimed products, synonymous with excellence and precision.

The company has a strong domestic presence with 40 offices employing close to 6,500 professionals across the country supported by over 7,600 dealers and distributors with world-class service network in 400 cities across India. Given the enormous size, scale and reach of the operations, Havells today has 415 exclusive brands shop known as Havells Galaxies to provide better shopping experience to our consumers.

HAVELLS MILESTONES

- Acquired Towers and Transformers Ltd.
- Started manufacturing MCBs at Badli, Delhi in Joint Venture with Geyer, Germany
- Set up a manufacturing plant at Sahibabad for Changeover Switches
- Set up another manufacturing plant at Faridabad for Control Gear Products
- Acquired Electric Control & Switchboards at Nodia for manufacturing switchboards
- Introduced high-end Ferraris Meters in Joint Venture with DZG, Germany
- Acquired controlling interest in an industry major-Standard Electricals Ltd.
- Acquired controlling stake in Duke Arnics Electronics (P) Ltd.
- Launched Crabtree wiring accessories in joint venture with Electrium
- Acquired controlling stake in Standard Electricals Ltd.

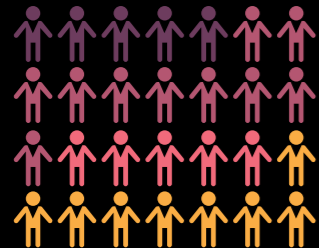

- Awarded the KEMA certification by The Dutch Council for Accreditation, making QRG the only group to attain this certification
- Set up of R&D Center in Noida H.O
- Crabtree India merged with Havells India
- Started mid-day meal program at Alwar caters to 10,000 students from 77 schools
- Set-up of Capacitor manufacturing plant in Noida, UP with the capacity of 6,00,000 kVAR per month
- QRG Group entered healthcare business by acquiring a majority stake in Central Hospital and Research Centre, Faridabad

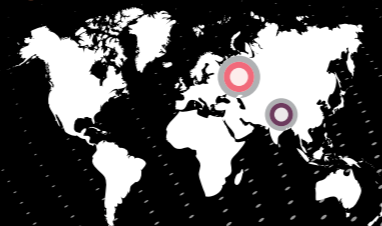

- Launch of Domestic Appliances
- Standard Electrical merged with Havells
- Entered into a Joint Venture with Shanghai Yaming Lighting, China
- Launch of Air Coolers
- First private cable & wire testing facility set up at Alwar plant
- Pledged to build eco-friendly and sustainable toilets in over 300 Schools
- Introduced India's First Brightest LED Lights 'LUMENO'
- Reached a milestone of 375 Galaxy
- Started in 2005, Mid-Day Meal scheme extended to over 57,000 school children across 672 schools in Alwar, Rajasthan

- Commenced trading operations in Delhi
- Acquired HAVELLS brand
- Set up the manufacturing plant for Rewireable Switches and Changeover Switches at Kirti Nagar, Delhi
- Set up a manufacturing plant for HBC Fuses at Badli, Delhi
- Started manufacturing high quality Energy Meters at Tilak Nagar, Delhi

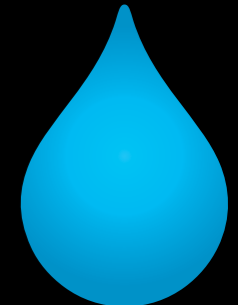

- Acquired business of Havells Industries Ltd.
- Standard Electrical Company becomes a 100% Subsidiary of the of Havells India Ltd.
- Launch of Fans, CFL and Lighting
- Set up plant at Baddi for manufacturing of Domestic Switchgear
- Set up a plant for manufacturing of CFL at existing manufacturing plant in Faridabad
- Set up a plant for manufacturing of Ceiling Fans at Noida.
- Set up our own marketing office in London
- Acquired MCCB business of Havells Dorman Smith Ltd.
- Acquired 100% of Havells Dorman Smith and renamed it to Crabtree India Ltd.

- First Indian CFL manufacturers to have adopted RoHS, European norms on Restriction of Hazardous Substances in CFLs
- Set up of Global Corporate office, QRG Towers at Expressway Noida
- Investment of ₹ 50 Crores in Global Centre for Research and Innovation (CRI)
- Launch of India's 1st HPF CFL
- Launch of India's 1st BEE 5* Rated Fan
- Sets up 2nd unit for Fan manufacturing at Haridwar.
- Sets up World's First New Generation CMH Lamp Plant at Neemrana
- Enter into Electric Water Heaters business

- Acquired Lloyd Electric and Engineering Ltd. in May 2017
- Launched Water Purifier category in December 2017

MAKE IN INDIA PHILOSOPHY

At Havells we believe in making a difference by touching every aspect of our consumer's life through the products we make. Since the very beginning all our products have been manufactured keeping in mind the highest standards of quality and innovation, so that they meet the world class standards that our consumers demand. And this legacy continues unwaveringly when it comes to Havells Water Purifiers too.

As an organization that's committed to the philosophy of 'Make in India', we manufacture over 95% of our products in-house. We not only focus on the productivity but also work towards creating a harmony between manufacturing output and efficiencies that deliver social, economic and environmental sustainability.

"Havells is a certified Water Positive organization with 4 zero water discharge facilities. We recycle water used in our manufacturing facility and purify it and supply to nearby villages around the manufacturing plant."

We have adopted world class technology and automation to ensure that we manufacture our products efficiently and with emphasis on conservation of energy and water in a sustainable manner. We pursue the methodology of total quality management to improve product quality while recycling and reusing our waste materials.

A special unit for manufacturing water purifiers has been set up at Haridwar plant of Havells with the following salient features:

- Ultramodern plant on floor area of 3,716.1216 Square Metre with installed capacity of million number units
- Customized design of cartridges to handle a range of new age pollutants
- Strict QA through in-house assembly of every cartridges of purifiers
- Highly motivated and well experienced manufacturing team and work force

CENTRE FOR RESEARCH AND INNOVATION

Large investments have been made in one of its kind advanced Centre for Research and Innovation. This research facility is dedicated to develop path breaking water purification products with emphasis on Design Excellence, Technology Advancement and Consumer Convenience.

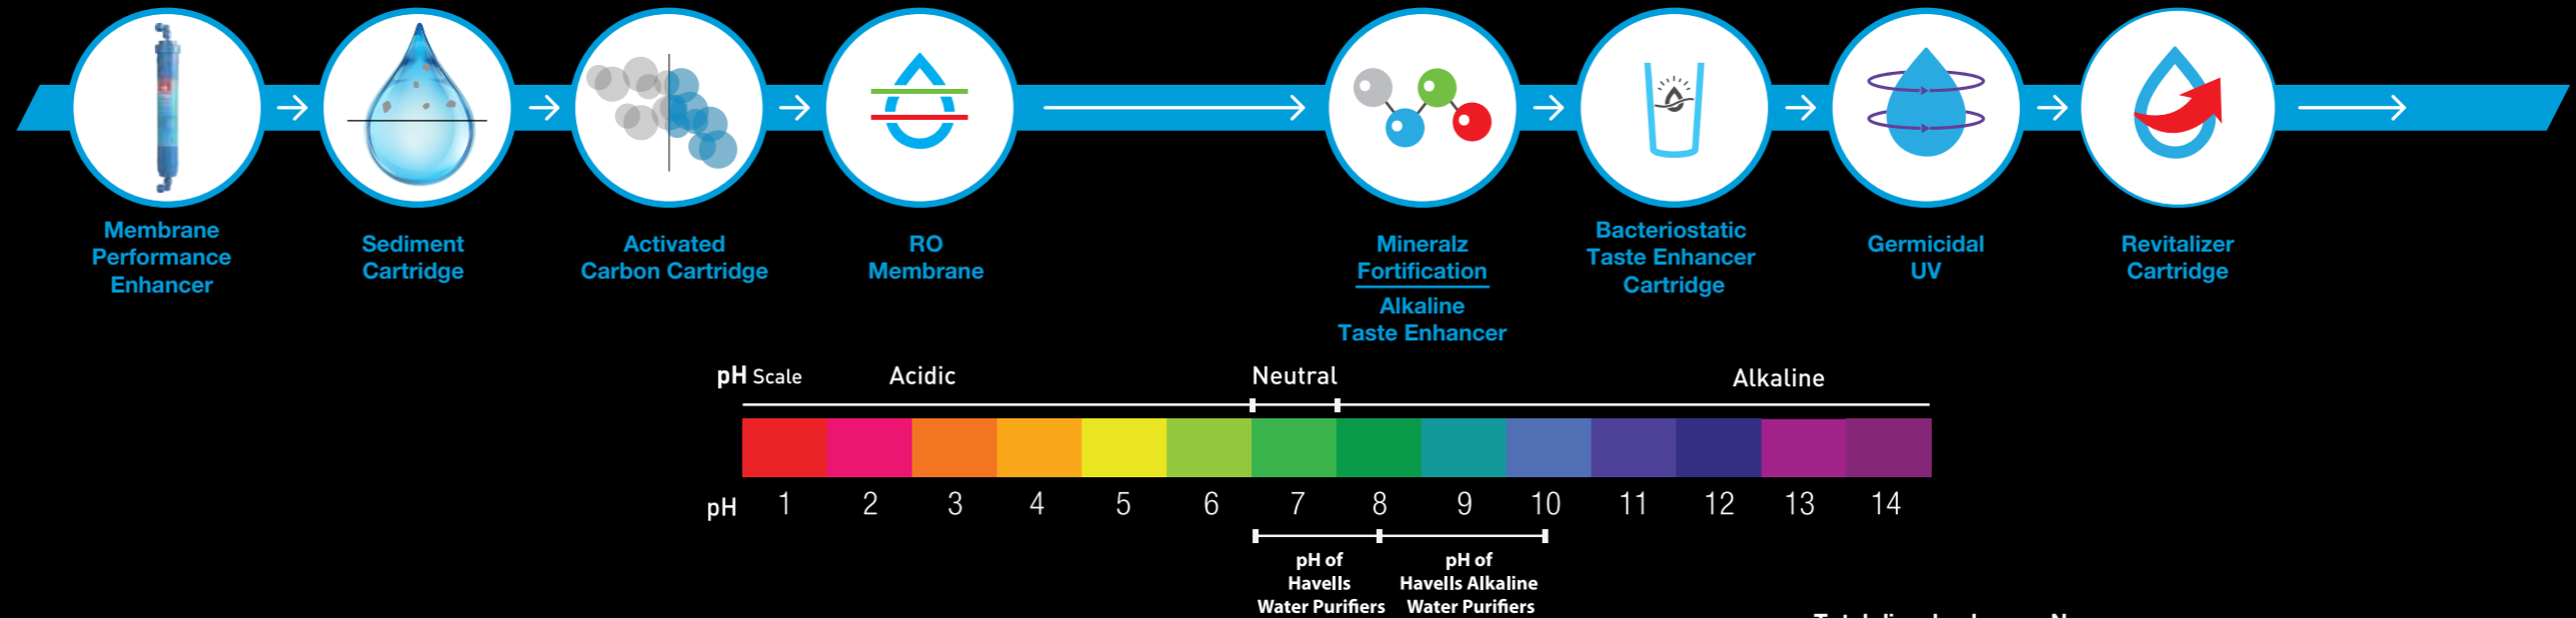

- Research facility boasts of 15 experts from water purification technology to develop best-in-class products
- State-of-the-art water technology lab equipped to evaluate chemical & microbiological parameters of water
- Continuous endurance testing of electronics and mechanical components to ensure consumers get the best performing products
- Panel of reputed international and Indian design houses to create aesthetically appealing design
- Dedicated in-house product design and engineering team to seamlessly convert concepts to manufactured products

ADVANTAGE HAVELLS

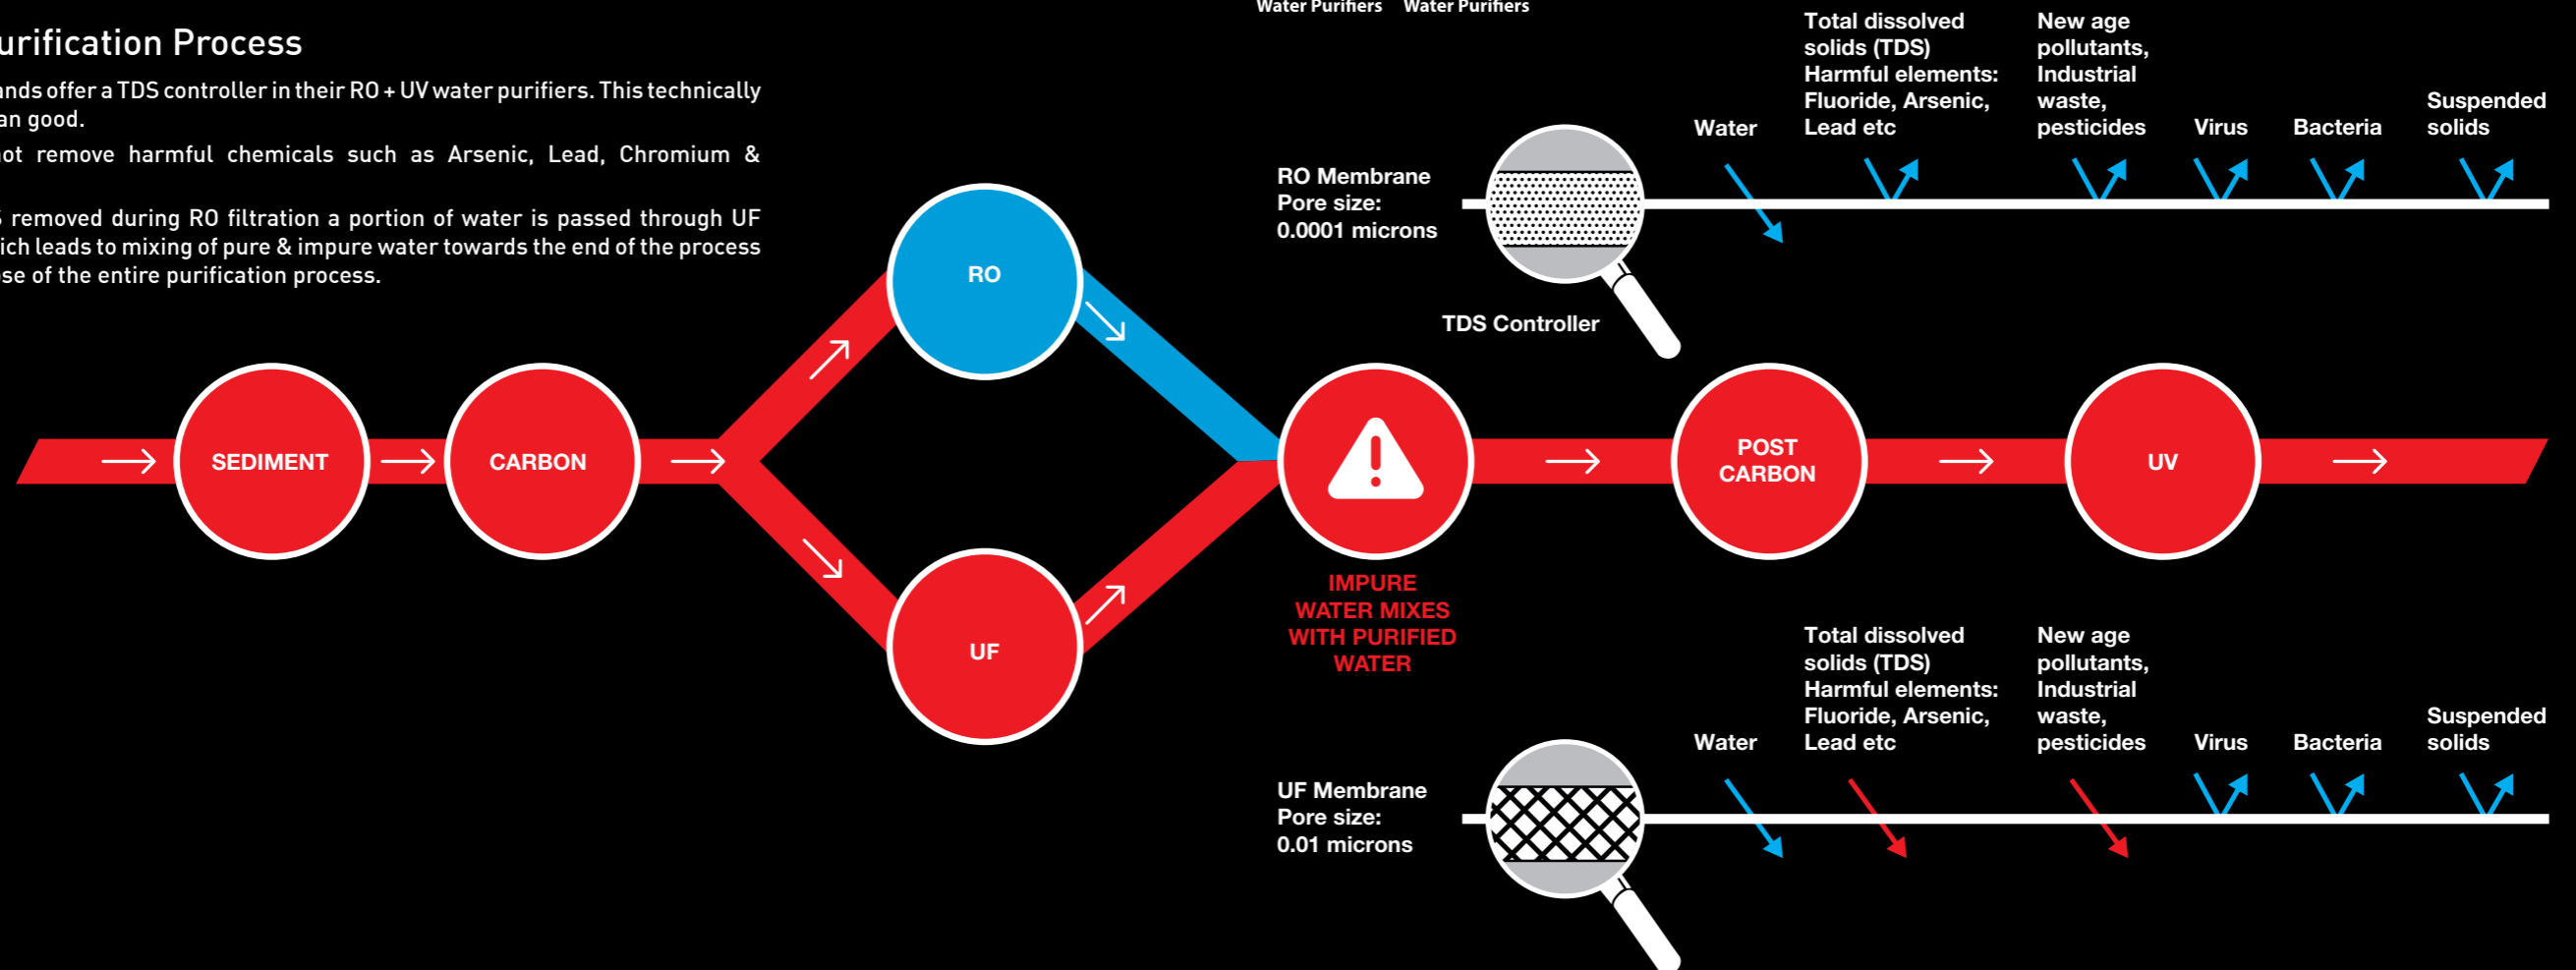

Havells Purification Process

Absolute Safety through 100% RO and UV Purification. 100% water passes through the RO membrane and then UV purification to ensure absolutely safe and healthy drinking water. Mineralz fortification balances pH and revitalizer improves bio-availability and absorption of water in the body.

Competition Purification Process

1. Many competing brands offer a TDS controller in their RO + UV water purifiers. This technically does more harm than good.
2. UF Cartridge cannot remove harmful chemicals such as Arsenic, Lead, Chromium & Pesticides etc.
3. To balance the TDS removed during RO filtration a portion of water is passed through UF purification only which leads to mixing of pure & impure water towards the end of the process defeating the purpose of the entire purification process.

**ALKALINE
WATER PURIFIERS
RANGE**

Powerful 8 Stage Purification for Alkaline Range

Safe and healthy alkaline drinking water

Stage	Stage - 1	Stage - 2	Stage - 3	Stage - 4	Stage-5 & 6	Stage - 7	Stage - 8
	Membrane Performance Enhancer	Sediment Cartridge	Activated Carbon Cartridge	Reverse Osmosis Membrane	Dual Stage Bacteriostatic Alkaline Taste Enhancer Cartridge	Germicidal UV	Revitalizer Cartridge
Function	Prevents scale formation on RO Membrane due to hardness in the source of water.	Removes coarse and fine suspended impurities such as sand, silt, dust, clay, and rust etc. from the source water.	Removes wide range of dissolved organic impurities such as pesticides, and herbicides. It also removes impurities such as residual chlorine and its by-product (THMs).	Removes dissolved contaminants and hazardous heavy metals from source water such as dissolved solids, salinity, pesticides, herbicides, arsenic, chromium, fluorides, and iron etc.	Results into Antioxidant nature of water.	Germicidal UV C at optimum Wave length of 253.7 nm irradiation, disinfects water and makes it free from microbiological impurities.	Restructures water molecules, making it biologically active.
Benefits	Improves performance and enhances the life of RO Membrane.	Improves performance and enhances the life of Activated Carbon Cartridge and RO Membrane.	Removes bad odour & organic impurities like pesticides & herbicides.	Reduces risk factors by removing chemicals, dissolved impurities and pesticides, delivering safe & healthy drinking water.	Enhances the pH level and taste of water by adding essential alkaline minerals.	Makes water hygienic and safe.	It improves mineral absorption, hydration in our bodies.

ADVANTAGE HAVELLS

POWERFUL 8 STAGE PURIFICATION PROCESS

PERFORMANCE

Triple Protection: 100% RO + Germicidal UV Column + UV LED Purification

Absolute Safety through 100% RO Purified Water:
100% Water passes through the RO Membrane to ensure absolutely safe and pure drinking water.

Purification through Germicidal UV Column :
An optimum exposure of water to Germicidal UV-C radiation in UV Disinfection Column makes water free from microbiological threats like pathogenic bacteria and viruses.

24x7 Tank Sanitation:
UV LED prevents the Bio-film formation. Maintains hygiene of water and stainless steel tank.

ECO RO:
High Recovery, recovers over 50% water and delivers high flow: saves water and time.

Bacteriostatic Alkaline Taste Enhancer:
It enhances pH level of water by adding essential alkaline minerals and trace elements such as Calcium, Magnesium, Potassium, Sodium, Copper, Zinc etc. delivers Healthier & Tastier water always. Also lowers the Oxidation Reduction Potential (ORP) resulting into antioxidant nature of water, transform regular water into alkaline water.

iProtect Purification Monitoring:
Constantly monitors the purification process and ensures safe water.

Revitalizer:
It restructures the water molecules and makes it biologically active to improve the hydration and mineral absorption.

CONVENIENCE

Stainless Steel Storage Tank:
Best in class hygiene assured.

Convenient Jog Dial:
Easy to dispense, zero splash, hygienic dial delivers desired volume of water.

Cartridge Life Indicator:
Monitors and displays the filter life expectancy to help you plan comprehensive maintenance in advance.

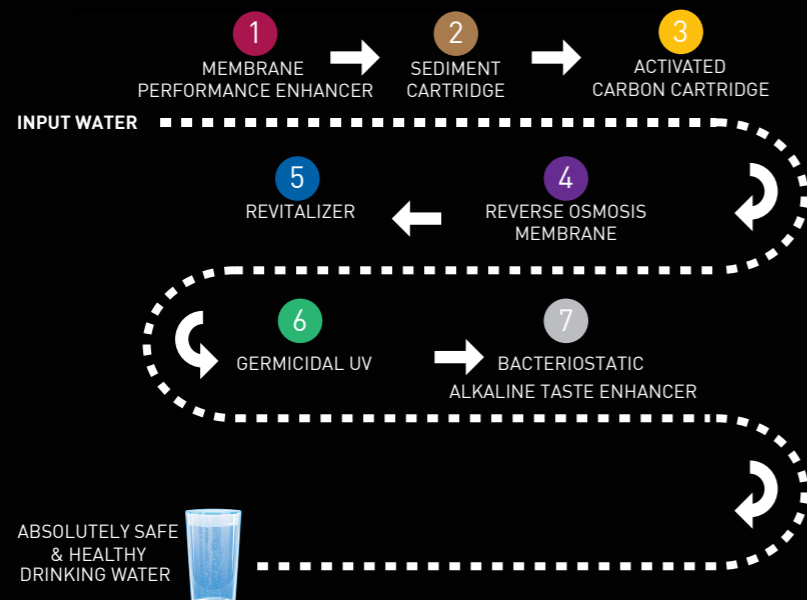

Smart Alerts:
Process alerts: Self-diagnostic, purification and tank full. Error alerts: UV, SV or pump failure.

PERFORMANCE

Absolute Safety through 100% RO and UV Purification:
100% water passes through the RO membrane and then UV purification to ensure absolutely safe and healthy drinking water.

Bacteriostatic Alkaline Taste Enhancer:
It enhances pH level of water by adding essential alkaline minerals and trace elements such as Calcium, Magnesium, Potassium, Sodium, Copper, Zinc etc. delivers Healthier & Tastier water always. Also lowers the Oxidation Reduction Potential (ORP) resulting into antioxidant nature of water, transform regular water into alkaline water.

Double UV Purification:
Delivers safe, purified and fresh water round the clock. Repurifies stored water through UV every time you turn the tap on.

Electrical Protection System:
Advanced electronics ensure purifier performs well in the voltage range of 170 V - 330 V, Power trips if voltage exceeds 330 V or if it drops below 170 V, It protects purifier from any electrical damage.

iProtect Purification Monitoring:
Constantly monitors the purification process and ensures safe water.

CONVENIENCE

Compact Design:
Offers ease in product installation and service. Closed cartridges design offers extra protection against recontaminations during the service.

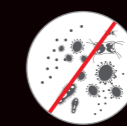

Smart Alerts:
Process alerts: Self-diagnostic, purification and tank full. Error alerts: UV, SV, low input water pressure or pump failure.

Wall Mounting:
Wall mounting option for installation and easy service.

Rotating Faucet:
Chorme finished faucet that rotates 360 degrees.

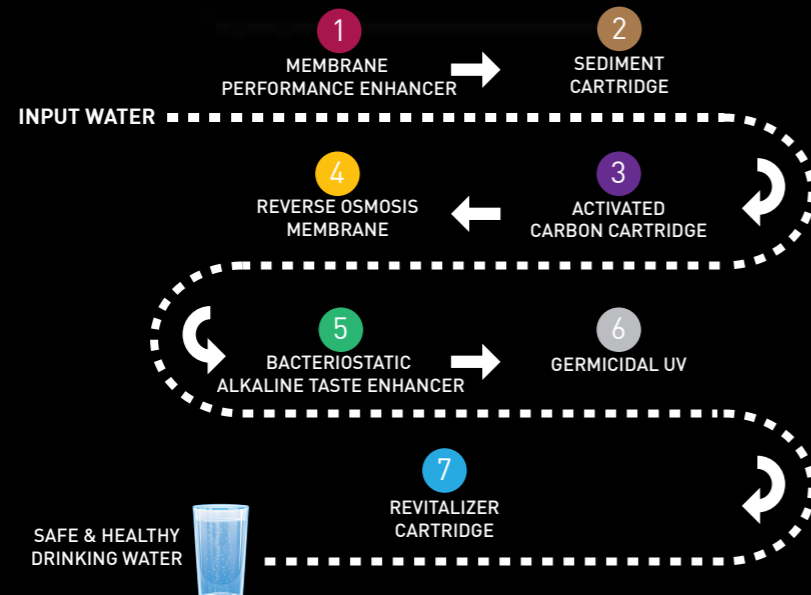

Ingress Protection Tank:
Prevents external invasion of insects and dust particles.

ALKALINE

UPGRADATION KIT

Convert your Water Purifier to Alkaline Water Purifier

Bacteriostatic Alkaline
Taste Enhancer

Membrane
Performance Enhancer

Compatible with Digitouch, Digiplus, Max, Pro havells pH balanced water purifiers.
Compatible with your existing water purifiers.

An easy to install kit, which converts normal water into Alkaline water.
It hydrates you well and helps in boosting the immunity

ALKALINE BENEFITS

Boost The Immunity Level

Alkaline water neutralize the acidity in the body which boosts the immunity level

Anti Ageing Properties

Alkaline water has high antioxidant power results high anti ageing properties

Better Digestion & Ultra-Hydrating

Alkaline water is more readily absorbs by the body results better digestion and keep body ultra-hydrated

Fulfils Essential Minerals

It enhances pH level of water by adding essential alkaline minerals and trace elements such as Calcium, Magnesium, Potassium, Sodium, Copper, Zinc etc. delivers Healthier & Tastier water always.

HAVELLS SERVICE PROMISE

1 IN A
MILLION
SERVISE

At Havells we pride ourselves in offering exemplary products to our consumers and when it comes to our installation and post-sales service, it's not so different either. We aim to delight the consumers at every step of the product life cycle.

Our promise of 1 In A Million Service signifies our commitment to each and every consumer that we value them and will do everything to make them feel special. We have built a dedicated team of water purifiers service associates and invested substantially to train the team on technical and soft skills. Personal attention and individual care at every step of the way is at the core of our Service Promise.

WHAT TO EXPECT FROM 1 IN A MILLION SERVICE?

1. Quick Response – Technology led CRM is backbone of our service infrastructure, we respond to you in shortest possible time, within 1 hour from the time of issue registration. You can reach us through Phone, E-mail or SMS.
2. Quick Resolution – Our products are designed to indicate possible source of error, in an unforeseen situation of fault. Our highly trained service associates aim to diagnose the issue in one go and address your concerns promptly and precisely. While our Service Engineers are committed to deliver first time resolution, they are also responsible to do so in the shortest possible time.

WHAT MAKES OUR 1 IN A MILLION SERVICE UNIQUE?

1. Each of our purification cartridges is customized and manufactured in-house with QR code for critical components. Havells Genuine Spares and Accessories seal on packaging of spares avoid any possible duplication.
2. A wide network of well-trained and experienced service associates dedicated for water purifiers business.
3. Our highly trained service associates are on our payrolls so that they focus on serving you better.
4. We ensure that our service associates visit your home as per your convenience with prior appointment.
5. Our service associates are trained to provide hygiene care at your home. They will wear shoe cover, head cover, gloves and use dust collector and service mat to make sure that when they leave your house, its spic and span.
6. Our products are designed to give preventive maintenance alert, besides our CRM team will remind you and schedule regular check-up of your product.
7. On time availability of spare parts to complete the service call in single visit.
8. A clearly defined and published escalation matrix ensures that your concerns are addressed promptly should there be any issue that you felt was not handled as per your expectation.

HAVELLS

Actual products may vary in colour, design, description and colour combination etc.
